Work Experience

Web Graphic Designer

Razoyo (web development company)
Design clients' website layouts, logos, banners, etc with Adobe Photoshop and Illustrator, website mockups in Photoshop, upload content to servers via FileZilla and backend log-in access via Magento, implement front-end graphics and edit the content of Magento websites, construct and send mass emails with Bronto, occasional print design, illustrations for company T-shirt. Zen Desk and Jira were used for communication at Razoyo to check tasks assigned to me by project managers and communicate with other employees.

Jr. Graphic Designer

Kersh Health (company promotes nutrition and exercise)
Hired to assist with re-branding. Provided original digital photography, digital imaging, print & web collateral, participated in advertising collaboration with the marketing director. Utilized Adobe software skills in Illustrator, InDesign, and Photoshop. I was especially relied on for realistic digital imaging in Photoshop. Helped organize content in printed materials for product instructions, packaging, and books about nutrition and exercise.

Children's Book Illustrator

Beyond the Stars Books - Illustrations for:

The Little Garden

A Hole In My Stocking
